Battery-Driven Power Equipment

General Maintenance

Disassemble battery pack. Batteries may be wiped with a cloth. DO NOT disinfect, immerse, or sterilize batteries.

Return batteries to charger after each use.

IMPORTANT
Do not sterilize batteries!
Batteries will no longer function.

Remove all instruments and attachments from drive units. Clean drive units and attachments by hand immediately after each use.

Cleaning

Manually clean the drive units and attachments under running water.
Use a mild, neutral pH cleaning solution.
DO NOT allow water to enter drive units.

Clean cannulations of the drive units and attachments with the cleaning brush. Pay particular attention to moving parts (triggers, release buttons, collars etc.).

Open the Quick Coupling for K-Wires [511.79], [530.790] or [532.022] fully before inserting the cleaning brush.
